

FURUTECH

PURE TRANSMISSION

*Introducing the Suppressor
Carbon Fiber-Clad Stainless
Steel AC Power Connector
Damping Ring*

*Premier Performance and
Legendary Build Quality*

The Suppressor (CF-080 AC Connector Damping Ring)

Furutech is known the world over for a huge variety of top-quality OEM parts. Furutech delivers consistently superior results by following Pure Transmission principles; examine every link in the power and signal path and ultimately optimize each and every element. And that especially includes damping mechanical resonances from a variety of mechanical and electrical effects.

In highly resolved audio systems EVERYTHING makes a difference. The Suppressor Ring is a substantially-built silver-colored carbon fiber over nonmagnetic stainless steel damper ring with three fixing screws. It accommodates all Furutech AC connectors except the FI-50 Piezo Ceramic series that was a Best of Innovations Award-winner for its built-in mechanical and Piezoelectric damping. If your Furutech power cores are not equipped with FI-50 AC connectors adding the Suppressor Ring is the next best thing for low distortion playback.

Features and Materials

- Body: CNC Lathe stainless steel
- Outer Cover Finish: Silver-Color Carbon Fiber
- Fixing Screws: 3 SUS screws 3 x 3mm
- Dimensions: 44.5 ϕ x 37.0 \pm 0.3mm (L) overall length approx.
