

Introducing the ADL iHP-35ML Stereo Headphone Cable For Intimate Listening...

ADL – Alpha Design Labs – creates innovative, smart-looking components with scintillating sound for computer-based systems as well as personal and portable electronics. Tokyo-based ADL aims high using the best materials and innovative design for an expanding line of Japanese-designed precision products that now include the ADL iHP-35ML.

High-quality headphones are a must in the age of personal, portable electronics, but many are supplied with inferior throw-away cables. Headphone listening is an intimate experience and enthusiasts always want better sound. ADL's iHP-35 cables accomplish that in spectacular fashion with headphones, players and headphone amplifiers. The iHP-35 series is available in five versions to make the perfect connection!

iHP-35ML-1.3M / 3.0M

iHP-35ML-XLR-1.3M / 3.0M [by request](#)

Not Just Another Pretty Face

The iHP-35ML is no ordinary cable; it's engineered and produced using Furutech's Pure Transmission technology. The cable features α (Alpha) OCC conductors treated with Furutech's α (Alpha) Process – a deep cryogenic and demagnetizing process. The connectors are 24k gold-plated 6.3mm stereo connector to 24k gold-plated MMCX-L connectors. The cable achieves extremely high noise isolation in a RoHS-Compliant sheath. The result is outstanding, wideband, colorful and engaging sound that audiophiles and music lovers will love.

Cable Construction

Conductors are all nonmagnetic 24k Gold-plated and treated with Furutech's α (Alpha) process

iHP-35ML- 1.3M / 3.0m terminated with to MMCX-L connectors

FP-701M XLR connectors to MMCX-L connectors by request.

Cable length 130cm (4.26ft) / 300 cm (9.84ft)

(For **SHURE 535, 425, 315, 215** Headphone use)

Enjoy the best sound around while looking – and sounding – as hip as they come!
