

# FURUTECH

PURE TRANSMISSION

***Furutech FT-783M(G)  
XLR Male Sockets for PCB***

***Premier Performance and  
Legendary Build Quality***

## ***Furutech FT-783 M(G) XLR Male PCB mount sockets***

Furutech is known the world over for their quality and wide variety of OEM parts. They deliver consistently superb results because Furutech engineers adhere to Pure Transmission principles; examine every element of the signal and power path and optimize each and every one.

Furutech's beautifully finished and just as importantly beautiful sounding XLR sockets are the result of meticulous engineering and careful audition of various materials. The FT-783M features  $\alpha$  (Alpha) pure copper conductors for minimal impedance set in a super heat resistant liquid crystal polymer resin and a nonresonant nylon/fiberglass housing that incorporates Furutech's super-effective Piezo Ceramic Damping Material. Unique to these special Furutech FT-784F and FT-783M XLR sockets are special nonmagnetic stainless steel plates that are incorporated into the piezo compound construction using a special Furutech patent-pending process. Pure Transmission principles at their finest!

### ***Features and Materials***

- Main conductor: 24k gold-plated  $\alpha$  (Alpha) Pure copper conductor
- Housing: Matte black finished Nylon/fiberglass with piezo ceramic resin (SUS plated internal parts)
- Pin holder & Conductor Inner insulation: Liquid Crystal Polymer Resin
- Connections: Soldered

Dimensions:

Insulation Housing: 32.0 X 27.0 x 31.7mm (H) overall height

***FT-783M(R) with rhodium plating upon request***

**Caution: Not for use with AC or DC Power connections.**
