Furutech FT-211 Spade Terminal Premier Performance and Legendary Build Quality

Furutech FT-211(G) Spade Terminal

Furutech makes a wide variety of OEM parts known the world over for their quality construction and superb sound. Our engineers examine every part of the signal and power path no matter how small and optimize each and every connection.

Take Spade Terminals:

Furutech's beautifully finished, beautiful sounding Spade Terminals are the result of meticulous engineering and careful audition of various suitable materials. The FT-211 features an α (Alpha) pure copper conductor for minimal impedance and extremely nonresonant nylon/fiberglass, piezo ceramic insulated body and polycarbonate housing.

Features and Materials

- Main conductor: 24k gold-plated α (Alpha) Pure copper conductor
- Housing: Black or Marbled finished polycarbonate housing.
- Insulation Body: Nylon/fiberglass with piezo ceramic resin.
- Termination: set screw
- Specified for core diameters up to 4.5mm
- Specified for core insulation diameters up to 7.8mm
- End Ring: Stainless steel

Dimensions: Housing: 18.0 X 16.0 ϕ x 19.8mm (H) overall height
Total overall length: 57.5 mm approx.
