PURE TRANSMISSION

Make A More Powerful Connection With  
Furutech Pure Transmission Technology

*Refinement Has a New  
Name...  
Furutech's Top-of-the-Line  
Lineflux Interconnect*

*Premier Performance and  
Legendary Build Quality*

## *Top of the Line for 2009! Furutech Lineflux Series Interconnects*

### ***Refinement Personified***

All audiophiles search for the same qualities: Verisimilitude to the original event, a sense of engagement promoting suspension of disbelief, a visceral immersion in the audio video experience.

The dilemma faced by many is that poor recording values are more apparent as audio systems gain clarity, transparency and resolution. Recordings that are acceptable sounding on a compromised system may grate as the bass, midrange and upper frequencies open up.

The wideband, smooth, extremely low noise and utterly musical presentation achieved by Furutech's beautifully finished Lineflux cables is down to meticulous engineering and a careful audition of various suitable materials. These results in the superb overall balance of qualities that Furutech is known for that allow you to feel, experience and *communicate* with music.

Furutech Lineflux interconnects feature solid-core  $\alpha$  (Alpha) OCC conductor, double-layer shielding, and a high-grade polyethylene dielectric with insulating materials that further dampen the transmission line. The substantially-built extremely nonresonant RCA or XLR connectors are finished in layered carbon fiber and stainless steel with rhodium-plated pins.

The results are extremely fine resolution down and through the very low noise floor, improved soundstaging and image palpability, a musical, attractive, "round" midrange, tight and controlled bass, plus power and dynamics to spare.

***$\alpha$  (Alpha) Conductors are comprised of fine OCC wires twisted around  $\mu$ -conductor strands and treated with Furutech's Alpha Cryogenic and Demagnetizing Process***

### Features

- Solid  $\alpha$  (Alpha) OCC Conductor
- Double-layer shielding for improved noise insulation
- Insulation/Dielectric: High-grade polyethylene
- Connectors:
  - Beautiful, hefty rhodium-plated carbon fiber and stainless steel
  - CF-102R RCAs or CF-601MR / CF602FR XLR connectors
- The best damping and insulation materials available for improved frequency extension and smooth tonal balance
- Carefully engineered cable clamp improves grip reduces mechanical and electrically-induced distortion
- Dimensions: Cable diameter approx. 13.0mm • Overall length: 1.2M/set

### About Furutech

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products like the new 120Hz standard xv1.3 HDMI cable, Ag-12 Silver Tonearm Cable, Pure Power 6, e-TP4+4, e-TP609 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, the deStat, a fan-driven, Balanced Ion Drive device for totally eliminating static from LPs and CDs, DF-2 LP Flattener, lightweight and stylish FRD Room Diffusion Panels, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.

Reference III Wins Absolute Sound Editors' Choice '07/'08  
 Ag-12 Phono Cable Wins Tone Audio's Exceptional Value Award '08  
 HDMI xv1.3 Digital Cable Wins Postitive Feedback's Brutus Award '08

Winner of Four Positive Feedback Brutus Awards '07 for the DeStat, DFV-1 LP Flattener (Replaced with the DF2) Select Series SK-II Antistatic Brush, and Nano Fluid Contact Enhancer
