

# FURUTECH

PURE TRANSMISSION

Make A More Powerful Connection With  
Furutech Pure Transmission Technology

*Refinement Has a New Name...  
Debuting Furutech's Top-of-the-Line  
Speakerflux Cables*

*Premier Performance and  
Legendary Build Quality*

*Top-of-the-Line for 2009! Furutech Speakerflux Cables  
Comes Standard with CF201r Spades for the Amplifier and CF202r  
Bananas for the Speaker Other Combinations on Request*

### ***The Effective Diameter of Your Music!***

The link between speakers and amplifiers is one of the most critical in a system. Speaker cables carry high current and require low resistive loss to avoid turning part of the signal energy into heat; high performance construction techniques call for large cable diameters or bundles of smaller conductors for an *effective* large diameter. Low resistance also keeps an amplifier's damping factor high avoiding uncontrolled driver movements.

Furutech specifies  $\alpha$  (Alpha) OCC Pure Transmission conductors terminated with beautifully-engineered high-performance rhodium-plated nonmagnetic pure copper spade connectors for the amplifier end and rhodium-plated banana connectors at the other end. Other connector combinations are available on request. The substantially-built extremely nonresonant connector bodies are finished in layered carbon fiber and stainless steel. The dielectric/insulation is high-grade PE reducing capacitance and improving mechanical damping for greater resolution, clarity, powerful dynamics, plus an ultra-quiet soundstage in which music develops more fully without artificial upper-frequency "presence region" glare.

The smooth, natural, utterly musical presentation is down to meticulous engineering and careful audition of various suitable materials. These results in the superb overall balance of qualities that Furutech has long been known for that allows you to feel, experience and *communicate* with music.

***Available Now in 2m and 3m Lengths***

***$\alpha$  (Alpha) Conductors are comprised of fine OCC wires twisted around  $\mu$ -conductor strands and treated with Furutech's Alpha Cryogenic and Demagnetizing Process***

### Features

- $\alpha$  (Alpha) OCC Pure Transmission Conductors
- Beautifully-engineered high-performance rhodium-plated nonmagnetic pure copper spades Type CF-201R
- Nonmagnetic rhodium-plated banana connectors Type CF-202R
- Dielectric/insulation: High grade PE reduces capacitance for improved vibration damping
- Results in greater resolution, clarity, powerful dynamics, and an ultra-quiet soundstage in which music develops more fully without artificial upper-frequency “presence region” glare.

### About Furutech

Furutech makes a wide variety of high performance 15A and 20A A/V cable and power connectors and parts, as well as distribution/filtering products like the new 120Hz standard xv1.3 HDMI cable, Ag-12 Silver Tonearm Cable, Pure Power 6, e-TP4+4, e-TP609 and e-TP60 Power Distributors, and e-TP80 Power Filters, deMag Disc and Cable Demagnetizer, the deStat, a fan-driven, Balanced Ion Drive device for totally eliminating static from LPs and CDs, DF-2 LP Flattener, lightweight and stylish FRD Room Diffusion Panels, PC-2 Disc Pure Cleaner, and their own very special NANO Liquid Contact Enhancer, plus even more fine cable and OEM products.

Reference III Wins Absolute Sound Editors' Choice '07/'08  
 Ag-12 Phono Cable Wins Tone Audio's Exceptional Value Award '08  
 HDMI xv1.3 Digital Cable Wins Positive Feedback's Brutus Award '08

Winner of Four Positive Feedback Brutus Awards '07 for the DeStat, DFV-1 LP Flattener (Replaced with the DF2) Select Series SK-II Antistatic Brush, and Nano Fluid Contact Enhancer
